FOR IMMEDIATE RELEASE

Action Floor Introduces Portable Floor System

(MERCER, WI) Action Floor Systems, a leading manufacturer of premium hardwood maple sports floors has added NitroPanel, a quick-assembly, panel-based portable floor to its line of premium hard maple athletic floor systems.

The NitroPanel Portable Floor System is a high-quality, durable sports surface that delivers excellent performance characteristics, and features a beautiful surface deck of MFMA grade-marked Action LL (long length) northern hard maple. Expansion Ridge Technology (ERT) accommodates expansion incrementally, board to board, offering strength and uniformity.

The NitroPanel subfloor system features stringers of premium laminated veneer lumber (LVL) — stronger and straighter, and without twists or bows common to SPF (softwood lumber). The subfloor deck boasts the superior strength and stability of Exposure 1 rated hardwood 4-ply, 15/32" (12mm) plywood.

Concealed steel assembly brackets, laser-cut and precision-formed, along with four-sided integral tongue-and-groove system ensure exact panel alignment. Specially engineered tapered steel assembly pins secure panels together and are easy to install and remove.

FIBA-certified, the NitroPanel system meets or exceeds requirements for amateur, international and professional applications.

Action headquarters and wood floor manufacturing plant are in Mercer, Wisconsin. For more information, visit www.actionfloors.com or contact Action Floor Systems LLC, 4781 North U.S. Highway 51, Mercer, WI 54547-9708 USA, 800.746.3512, Fax: 715.476.3585, e-mail: info@actionfloors.com
