ACTION FLOOR SYSTEMS ANNOUNCES NEW, EASY-INSTALL LOW-PROFILE SYSTEM

(Mercer, WI) The new Action Anchor Tech LP system from Action Floor Systems, is a low-profile anchored and cushioned maple floor system, offering excellent performance characteristics and simplified installation.

The Action Anchor Tech LP system features solid maple flooring over a layer of predrilled, factory assembled plywood panels and continuous 3/16" AirTech I natural rubber pads. Designed to be secured by anchoring pins into a concrete slab for dimensional stability and strength, Anchor Tech LP is highly resilient, offering uniform playability and consistent shock absorption to reduce injuries to athletes. Ideal for new and retrofit installations, Anchor Flex LP is suitable for gymnasiums for a wide range of athletics, dance floors and aerobics.

Action Floor Systems is a leading manufacturer of premium hardwood maple and synthetic sports floors. Action hardwood sports floors are produced in the company's plant in Mercer, Wisconsin and constructed of hard maple timber grown exclusively in northern Wisconsin and Upper Michigan—the hardest, finest-grained, and most sought-after wood available for top-quality athletic surfaces.
