FloorScore®-certified flooring for superior indoor air quality

Action Floor Systems can meet today's rigorous **Indoor Air Quality (IAQ)** emission requirements expected by architects and owners.

Our FloorScore Certification:

Solid Hardwood and **Action Herculan Pad and Pour Systems** are IAQ Certified to SCS-EC10.3-2014 v3.0:

- **Unfinished Solid Hardwood Flooring** ^{25/32"}: Registration # SCS-FS-04219
- **Herculan MF**: Registration # SCS-FS-04375
- Conforms to the CDPH/EHLB Standard Method v1.1-2010 (California Section 01350) effective January 1, 2012, for the school classroom and private office parameters when modeled as Flooring
- Measured Concentration of Total Volatile Organic Compounds (TVOC): Less than/equal to 0.5 mg/m³ (in compliance with CDPH/EHLB Standard Method v1.1-2010)

Plus, our **Environmental Product Declaration (EPD)** satisfies all the requirements of Product Category Rules (PCR) and Life Cycle Assessment (LCA), and follows international standards, including ISO 14044, ISO 14025, and ISO 21930 for building products.

The how, what, why of FloorScore certification

- Developed in 2005 by the Resilient Floor Covering Institute (RFCI)
- The most recognized IAQ certification standard for hard surface flooring materials, adhesives, and underlayments
- Conforms to the requirements of California Specification 01350 (Standard Method v1.1)*
- Conforms to the requirements of the SCS-EC 10.3-2014 IAQ Standard
- Qualifies for many green building initiatives: WELL, BREEAM, Collaborative for High Performance Schools (CHPS), LEED v4 criteria for low emitting materials (flooring and flooring adhesives)

Connect with the sports floor source

Action Floors has a long history of leadership in providing FloorScore-certified maple flooring and subflooring systems. Contact Action Floors today at 800-746-3512, email info@actionfloors.com, or visit actionfloors.com/contact-us.

*FloorScore laboratory testing is conducted according to California Specification 01350, which includes the Chronic Reference Exposure Level (CREL) concentrations established by the California Office of Environmental Health Hazard Assessment (OEHHA) and procedures developed by the United States Environmental Protection Agency (EPA).
