

ACTION TURF

SPEED AND AGILITY FLOORING SYSTEM

Our Action Turf creates a premier performance surface for a variety of activities. This specialty non-infill turf flooring system is ideal for speed and agility training, strength training, plyometrics, fitness, and more. It's highly durable to withstand rigorous activity, cleat-friendly, and made with a polyethylene/nylon blended fiber for less maintenance and increased cleanliness.

ACTION TURF BENEFITS

- Reinforced foam cushion layer offers shock absorption for added protection
- Easy to clean and maintain to reduce infection and mold growth risks
- Composite backing secures fibers to provide maximum durability
- Indoor and outdoor applications
- Available in 7 standard colors
